 - There was a lots of questions about this request. Troy or Cerk was not there to ask questions so we compiled a list of questions so we can address this at a later meeting date.
 - 1.) What about security of the trailer and where would it be stored?
 - Troy's response in an email after the meeting: Storage we will have to talk to our maintenance about but we will find somewhere to store it.
 - 2.) Who would pay for the insurance, registration and maintenance?
 - Troy's response in an email after the meeting: The school will take care of all insurance and registration since it will belong to the school
 - 3.) Would the other organizations that would like to use it be able to chip in?

-Troy's response in an email after the meeting:

When this was looked at we talked to some places who had them and their boosters bought the trailer for the school. I do not see the school paying for it. I cannot speak for the FFA or the band/choir boosters but they may be able to help.

4.) Who would manage if more than one group needed to use it at the same time?

-Troy's response in an email after the meeting: Everything will go through myself and the transportation director for use. I don't think there will be too many issues but if there is the two of us will look at it to see who needs it the most and decide.

5.) If we could find a used one in good condition, would this be sufficient?

-Troy's response in an email after the meeting: As far as model we just need something easy to use and in good shape. It will most likely be pulled by the suburban so we want it to fit as easy as possible. It needs to be well enclosed so water does not get in and everything inside stays safe

-Cerk's response in an email after the meeting: I looked at used ones and they are still pretty pricey. I would rather have a brand new one.
